

INVOICING STANDARD PURCHASE ORDERS

This guide is relevant if Tirlan has sent you a **Standard Ariba Purchase Order (PO)** and you wish to create an invoice against this PO.

A Standard Ariba PO will be easily identifiable, as the PO number will begin with the numbers **49** or **459**.

Note: If you have received a PO that begins with the numbers **479**, please refer to the guide: **Ariba Invoicing_Framework_Purchase Order**.

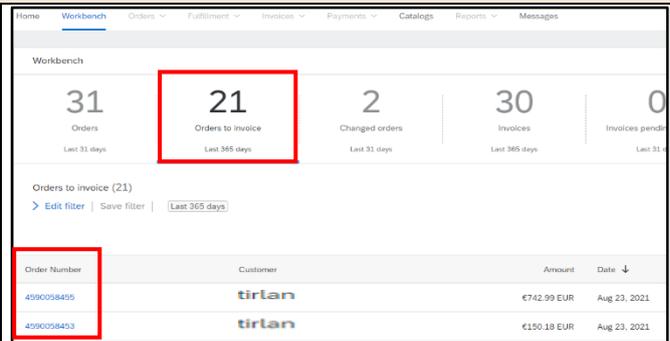

BEFORE YOU START:

- If this is your **first time using Ariba** and you do not have a username and password, complete your registration first by following the instructions provided in the guide: **Ariba Registration**

ACCESSING THE PO

1. Log into Ariba with your username and password.

From your workbench click on the 'Orders to Invoice' tile and select the PO that you wish to submit an invoice against.

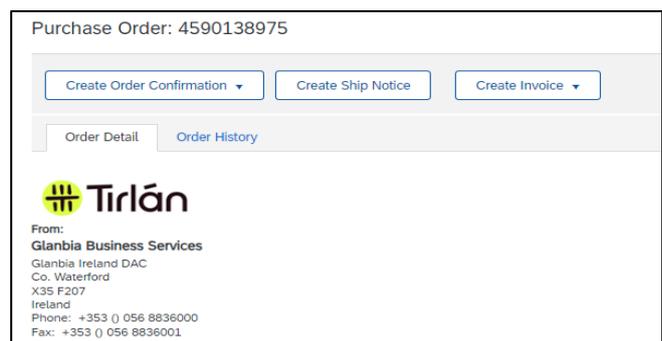

The screenshot shows the Ariba Workbench interface. At the top, there are navigation tabs: Home, Workbench, Orders, Fulfillment, Invoices, Payments, Catalogs, Receipts, and Messages. Below the tabs, there are several tiles: '31 Orders' (Last 31 days), '21 Orders to Invoice' (Last 365 days), '2 Changed orders' (Last 31 days), '30 Invoices' (Last 365 days), and '0 Invoices pending'. Below these tiles, there is a section for 'Orders to invoice (21)' with links for 'Edit filter', 'Save filter', and 'Last 365 days'. A table below shows two orders:

Order Number	Customer	Amount	Date
4590098455	tirlan	€742.99 EUR	Aug 23, 2021
4590098453	tirlan	€150.18 EUR	Aug 23, 2021

ADDING VAT/TAX TO LINE ITEMS

IMPORTANT: The PO must contain separate line items for different VAT/Tax rates.

You cannot add different VAT/Tax rates to one single line.

If the PO does not contain separate lines for different VAT/Tax rates, please contact the PO requester to amend the PO.

11. If there is only **one VAT/Tax rate** to be applied to your invoice:

Put a check in the box beside **Tax Category**

Select the required rate from the dropdown.

Add to Included Lines to apply the appropriate VAT/Tax rate to your entire invoice.

12. If there are **multiple VAT/Tax rates** to be applied to your invoice:

Select one VAT/Tax rate to start with.

Use the switcher beside each line to exclude the line(s) that **you do not** want to add this VAT/Tax rate to.

(Lines which are grey will not have the rate applied, lines which are green will).

Repeat steps **above** until all VAT/Tax rates have been applied to the relevant line items.

Remember to ensure all lines are 'Green' before proceeding to submit

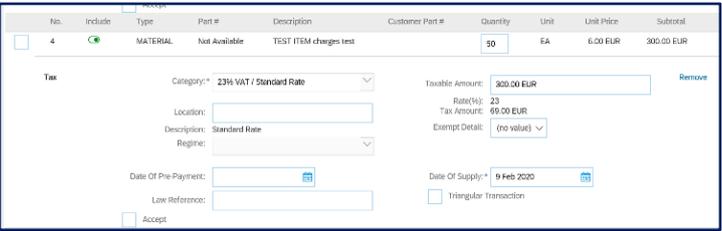

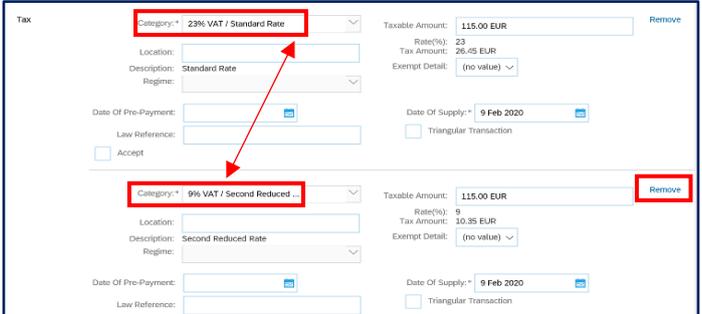

13. A) EMEA Suppliers:

For Suppliers whose transactions are Zero Rated or Exempt, you will see two dropdowns:

0% Supply Good or Service

0% Exempt Good or Service

Please select the relevant option.

	<p>If your Goods or Services are subject to Reverse Charge VAT accounting, then please ensure you indicate this by putting a 'check' in the 'Reverse Charge' box on your VAT line.</p>	
<p>14.</p>	<p>B) US Suppliers:</p> <p>Select the applicable Sales Tax from the dropdown menu.</p> <p>Enter your Tax Rate in the field provided. If there is no tax required, enter 0%.</p>	
<p>15.</p>	<p>Once all applicable VAT/Tax rates have been added, a VAT/ Tax line will appear underneath each line item.</p> <div style="border: 1px solid red; padding: 5px; margin-top: 10px; color: red;"> Review this information carefully to ensure VAT/Tax rates have been applied correctly. </div>	
<p>16.</p>	<p>IMPORTANT: Ensure that you have not added more than one VAT/Tax rate to line items.</p> <p>If you have added more than one VAT/Tax rate to a line item, use the Remove button to delete the additional VAT/Tax rate(s), or this will cause your invoice to be rejected by Ariba.</p>	

ADDING ATTACHMENTS TO YOUR SUBMISSION

For certain purchase types, Tirlan may require you to attach a PDF copy of your own invoice to your submission to support tax validation. If you are required to attach a copy of your invoice, an error will occur if you try to submit your invoice without adding an attachment.

All suppliers can attach a PDF copy of their invoice as a supporting document (even if it is not mandatory for you to do so) but the amount that will be paid to you will be the amount that is processed on your Ariba submission, not the amount on your PDF invoice.

<p>17.</p>	<p>Scroll to the top of the page and click Add to Header.</p>	
<p>18.</p>	<p>Select Attachment from the dropdown menu.</p>	
<p>19.</p>	<p>Scroll down the page to the Attachment section (beneath Supplier VAT). Click Browse.</p>

APPENDIX 1: INVOICES THAT REQUIRE A 'GOODS RECEIPT'

The following information is relevant if you supply Tirlán with goods or services that require a goods receipt note (GRN) to be completed by Tirlán before an invoice can be submitted.

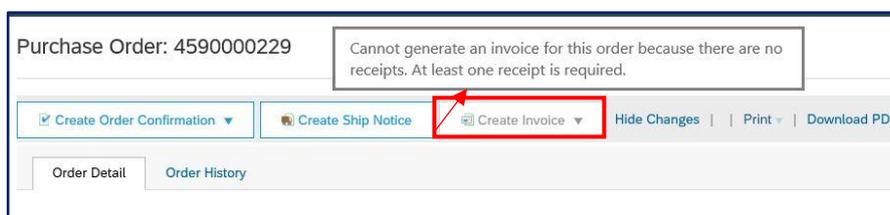

What is a Goods Receipt Note (GRN)?

A GRN is an acknowledgement that is entered on Tirlán's procurement system by the requester when goods or services have been delivered.

How will I know if this rule is applicable to my invoices?

Suppliers will see that the **Create Invoice** option in Ariba is greyed out when a goods receipt has not been completed.

When you hover over the greyed out button, a message will appear indicating that a receipt is required before an invoice can be generated.

If this message appears, it means you will not be able to submit an invoice until the goods receipt has been completed.

If you have delivered the goods or service and need to submit an invoice, please contact the requester (email address can be found on the PO) as they will need to complete the goods receipt before you can submit your invoice.

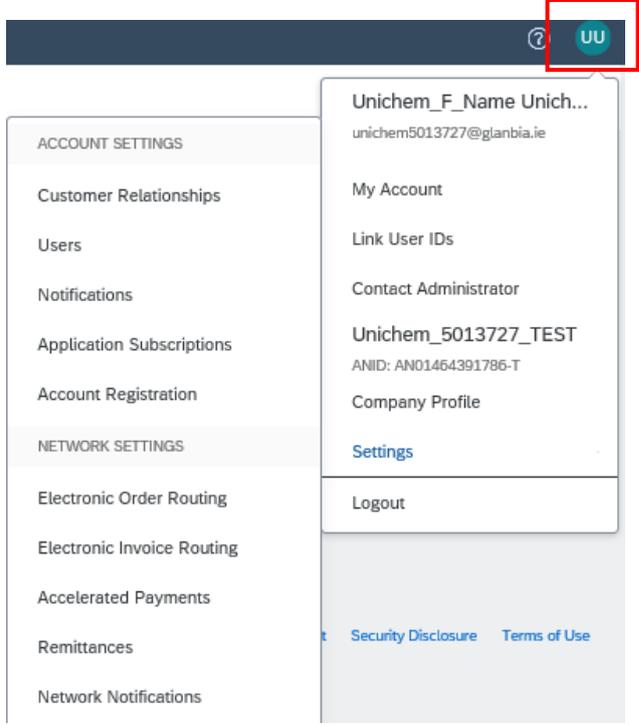

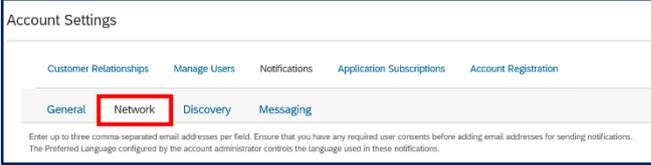

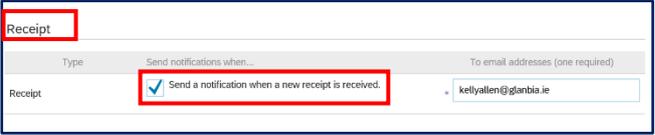

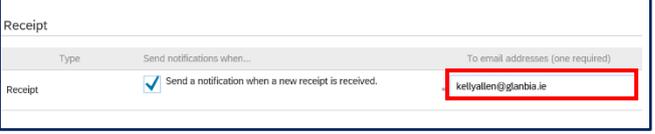

Once a goods receipt has been completed, the **Create Invoice** option will become available.

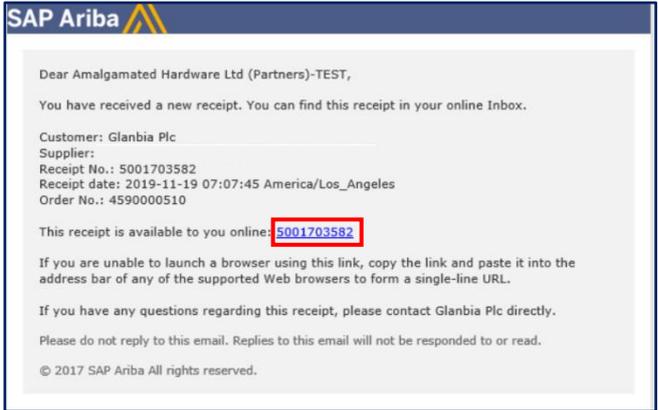

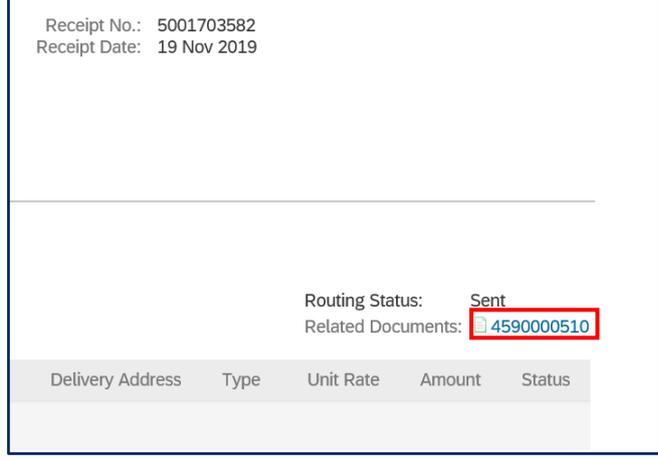

The following instructions are provided to help suppliers;

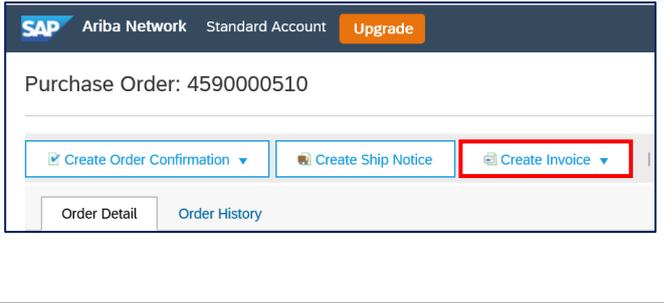

- Enable alerts to notify suppliers when a goods receipt has been completed by Tirlán
- Identify which PO line items can be invoiced against
